

LETTERS

An international journal providing for the rapid publication of short reports on microbiological research

Chief Editor: C.A. FEWSON

Department of Biochemistry, University of Glasgow, Glasgow G12 8QQ, Scotland, U.K.

A full list of the Editorial Board is available upon request to the Publisher.

FEMS Microbiology Letters provides a vehicle for the rapid publication of short reports on research in all aspects of microbiology and microbial chemistry. Papers should be complete in themselves and adequately supported by experimental detail. Preference will be given to papers that merit urgent publication by virtue of their general interest and content of novel material.

Subscription Information:

1991 Volumes 77-84 in 24 issues

Price US\$ 1348 50/Dfl 2400 00

plus US\$ 134 75/Dfl 240 00 postage and handling

ISSN 0378-1097

Abstracted/Indexed in: Biological Abstracts, Chemical Abstracts, Current Contents (Life Sciences), Excerpta Medica (EMBASE), PASCAL

Published by Elsevier Science Publishers on behalf of the Federation of European Microbiological Societies

FEMS Microbiology (Full Set)

Subscription Information:

1991 Volumes 77-89 in 46 issues

(Full subscription to all sections + cumulative index volume which is supplied at no extra charge)

Price US\$ 2074 25/Dfl 3692 00

plus US\$ 219 00/Dfl 390 00 postage & handling

ELSEVIER SCIENCE PUBLISHERS

P.O. Box 1527, 1000 BM Amsterdam, The Netherlands. Fax: (020) 5803-342

DISTRIBUTOR IN THE USA AND CANADA.

ELSEVIER SCIENCE PUBLISHING CO. INC.,

P.O. Box 882, Madison Square Station,

New York, NY 10159, U.S.A. Tel (212) 633-3750

PLANT SCIENCE

an international journal of
experimental plant biology

Chief Editors:

J.A. Schiff, *Institute for Photobiology, Brandeis University, Waltham, MA 02154, U.S.A.*

J.H. Weil, *Institut de Biologie Moléculaire des Plantes, 12 Rue du Général Zimmer, 67000 Strasbourg, France*

Aims and Scope:

PLANT SCIENCE publishes, in the minimum time, papers recommended by its referees in all areas of experimental plant biology, under the four major section headings of **Physiology and Biochemistry, Genetics and Molecular Biology, Cell and Tissue Studies in Vitro and General**. Papers describing experimental work with multicellular plants and plant-like microorganisms (protists, including algae, fungi, and blue-green algae (cyanobacteria)) are appropriate.

Submission of manuscripts in the broad areas of biochemistry (including enzymology), bioenergetics, cell biology, development, genetics, molecular biology, physiology and structure in relation to function, as well as fundamental work in these areas related to agriculture and phytopathology is invited.

Subscription Information:

1991: Volumes 71-78 in 16 issues

Price: US\$ 1296.00 plus US\$ 136.00 postage and handling

ISSN 0168-9452

Abstracted/Indexed in:

Biological Abstracts; Current Contents (Life Sciences),
Chemical Abstracts; Current Contents (Agriculture, Biology
and Environmental Sciences).

Examples of areas covered by **PLANT SCIENCE**:

- Cell and tissue culture, protoplasts, cell fusion
- Cell organelles - including development of plastids and mitochondria and cell walls
- Cellular and Molecular genetics
- Enzymology and intermediary metabolism
- Inorganic metabolism including nitrate reduction, nitrogen fixation, sulfur metabolism and other macro and micro elements
- Molecular biology of plant cells
- Nucleic acids, proteins and their metabolism
- Nucleocytoplasmic interactions
- Photosynthesis, respiration and carbon metabolism
- Phytochemistry and secondary plant products
- Pigments, including biochemistry, metabolism and biosynthesis of chlorophylls, anthocyanins etc.
- Regulation of growth, development and differentiation
- Ultrastructure and cellular fractionation
- Viruses
- Water relations, transport of solutes etc.
